Amber Autumn's Tucker

Male Huacaya Dark Fawn D.O.B. 07/01/06 CLAA #3245 ARI #131747

Donated by Shirley & Daryl Krause - Amber Autumn Alpacas - Spruce Grove, Alberta Phone: 780-962-8886

A treasure from the Amber Autumn herd is coming your way – AMBER AUTUMN'S TUCKER. This handsome young male represents a truly fine example of the quality from the Amber Autumn herd and comes from notable parentage. Tucker's dam is blue black with an outstanding micron of 21.2 at 11 years of age. His sire, the famous multiple Grand Champion dark brown herdsire, RFA Turk, held a micron of 22.7 at age 5! With these fibre stats in his pedigree, one can only expect great things from TUCKER. His fine, dark fawn fleece exhibits the character and crimp we all look for and the brightness of his fleece is a perfect visual indicator of the silky and soft handle you feel when you touch it.

During the 2006/2007 show season, the Krause's included Tucker in their US show circuit team and he did not disappoint. Tucker placed in every show he was entered in where the competition was tough at large shows with over 800 alpacas being judged. With his enviable pedigree, gorgeous fleece and fine show record, the stars are lining up for this boy to become a truly great herdsire – don't miss this opportunity to make a difference to your breeding program.

IAOC Bianca

Bred Female Huacaya Fawn D.O.B. 06/04/05

IAOC Bianca is a gorgeous female with very advanced fleece exhibiting excellent density, fineness and high frequency, high amplitude crimp style. Bianca is the daughter of Miss Prairie Wind who was sired by Lional who is the son of Maple Brook Farm's Peruvian Bueno, one of the most famous, well-deserved US herdsires. Bianca's sire, High Country's Bolivian Iceman, needs no introduction. Iceman has many show winning offspring on both sides of the border (Canada and US). He also has several Get of Sire Championships to his name. Bianca sells bred to International Alpacas' full Accoyo herdsire, Peruvian Accoyo Arctic, one of Canada's only Full Accoyo Herdsires.

Tiger Lily Beauty

Bred Female Huacaya White D.O.B. 06/04/05

Tiger Lily Beauty is a fabulous bred white female. She is very correct conformationally and her fleece is just gorgeous. Beauty's dam is HCL Miranda who has done well in the show circuit winning two Reserve Champions. Beauty's sire is the famous 4Peruvian Ares who still maintains a micron of 24 at 12 years of age. In June of this year Beauty and HCLA Bolivian Ice Man gave us a spectacular, high quality, white female, Tiger Lily Cricket Ice. This cria is not being sold with Beauty. We have decided to breed Beauty back to HCLA Bolivian Ice Man for the same 2008 cria. For more information on Tiger Lily Beauty please visit www.tigerlilyranch.ca. Why not bring some beauty into your life?

Tell Tale Zordini

Bred Female Huacaya True Black D.O.B. 08/17/06

We love Zordini's colour. An incredibly pure jet black all over, she is a classic true black alpaca - even the tips of her locks retain their colour without fading. She is a calm and curious girl with a stylish head, great balance and extremely upright posture. Zordini's fleece is bright, with soft handle and stylish crimp inherited from her full Peruvian champion sire, Sundance Kid. Her dam is a solid black Quellermo granddaughter with loads of black and grey in her pedigree. With her awesome true black colour and her renowned bloodlines, Zordini is quite the hot little number. She has been shown twice - at the A.L.P.A.C.A. Spring Show and the Canadian National Futurity - and brought home ribbons each time. Zordini is bred to Tell Vivace for an August 2008 cria. If your passion is breeding quality black alpacas, Zordini is definitely worth a close look. She is a fine example of Tell Tale Farm's reputation for excellence and Living Color Genetics.

S Dreams Shakira Dance

Bred Female Huacaya Light Fawn D.O.B. 08/02/06

Shakira Dance is a female that will be one of those awesome foundation females for your breeding program. She is a strong female that comes from unique genetics. Her sire, Aztec Outback, is now residing in Quebec. Outback is virtually unrelated to anything in Canada as his sire, Aztec Avalanche, is in England. Outback's AFD, from Old's College, as a three year old is 23.81 Shakira's dam, Zaccoyo's Geneva, had an AFD of 23.7 as a two-year old. Geneva is a phenomenal Zaccoyo daughter with excellent mothering abilities. Shakira is bred to Kelowna's Sundance Kid. The Kid has continually and consistently thrown top show winners in all the largest shows. He (99% of the time) throws color darker than that of the dam. You can't say that about many of our white males in Canada. Be confident with these genetics. Shakira will do awesome things for your breeding program. You can also be assured that the cria Shakira currently carries will excel in the show ring.

D.O.B. 05/30/02

Only the second time that a Golden Boy daughter has been offered to the public by our farm, Rochelle displays very correct confirmation, a perfect bite, and solid black eyes. Her dense, lustrous soft handling fleece displays a high frequency crimp with very nice character throughout. She is medium fawn in color with rose grey highlites so there is a very good chance she will produce rose grey when bred that way. A very good mom, easy to rebreed, an abundance of milk, a gentle quiet personality, all characteristics that we breed for at Amber Autumn. To date, Rochelle's cria have been very correct with very nice phenotype, strong bone, and fleeces that display very nice luster, fineness, and soft handle. Her 2005 male cria, Amber Autumn's Koda was in our 2007 USA spring show string and done very well, placing in every show and winning a blue ribbon in the futurity at Louisville, KY. Bred to Turk she produced blue black. We decided to breed her to our Supreme Champion dark fawn herdsire, Eclipse Elyst for an early 2008 cria. That should be exciting!!
